Guidelines for Contributors

Manuscript Preparation

The contributors are expected to submit original scholarly articles in the following format.

1. **Files:** Please send only MS Word files. When submitting a paper for review, please include tables and figures in the manuscript file. **DO NOT SEND MULTIPLE FILES.** You are requested to use Times New Roman with 12 font size with double space between the lines. Justify the main text and indent first lines of paragraphs rather than spacing between them. Avoid tabs. Please number all pages except the cover page.

2. Organisation of manuscript:

- **Cover Page:** Place the title, author name(s), contact information with phone/fax number for the corresponding author, and a biographical sketch for each author on the cover page. There would be no page number in the cover page.
- **Abstract:** Cover sheet should be followed by an abstract summarising the main conclusions of the paper in no more than 150 words. Abstract should be followed by Key words. Please number this page as page 1.
- **Main body:** Start the main body of the paper on page 2. The article should be within 3000 to 6000 words normally, and can be up to 8000 words in exceptional cases.
- **References:** References should be written in APA format (sample entries given afterwards).
- **Tables and figures:** We encourage use of appropriate graphics to explain, illustrate, and summarise concepts and results without lengthy prose. Please keep the title and captions brief while placing the titles above tables and captions beneath figures. Do not embed numbers or captions in images; instead, place them outside the image, but on the same page. Tables & figures must be followed by references.
- **Notes:** Use notes sparingly and keep them brief. Provide notes as a numbered list at the end of the text, not as footnotes on each page.
- **Graphic Materials:** Once a manuscript has been conditionally accepted, please send each figure as a separate electronic file, named with the manuscript number and figure number. Send the largest files (highest resolution) possible, preferably saved in the application in which the graphic was created.
- **Permission:** The author is responsible for obtaining permission to use any copyrighted graphic materials. Ownership should be acknowledged in the caption.
- **Colour of Images:** Graphic materials (tables, charts, graphs, maps, line drawings, etc.) must be **black and white**. Color photos may be acceptable, depending on the image; they will be converted to black and white.
- **Graphs and Charts:** Graphs and charts should fit the width of 1 or 2 columns. For labels use 9-point or 10-point Times New Roman type.

- **Citations:** Citations of other works should be limited to those which are strictly necessary. Short quotations should be included in the text within inverted commas (“ ”) while quotations of more than 30 words should be placed in a separate paragraph indented from the main body of the text. However, all quotations should be accompanied by precise references.
