VISIT BY MAHARASHTRA EDUCATION
MINISTER AT IES ORION .

It was a great privilege and honour to have Mr.Vinod Tawde – the State Education Minister to visit our school and address our students in the classroom on Monday the 15th June 2015 .

About his Visit to IES ORION

Our Education minister visited our premises at around 9.30 a.m. in the morning. He interacted with the students by going and speaking to them in their classes. He sat with the little children on their benches making them comfortable and talked to them in a very friendly manner wherein they could respond fearlessly. The students had a great time interacting with him.

Then he visited the classes in the IES premises.

Large groups of audience were present at B.N.Vaidya Hall comprising of students, teachers and parents from all the schools both SSC and ICSE in the IES premises who were eagerly waiting to meet our Education minister.

Mr. Tawde was greeted with loud applause and bouquet of flowers. He stood amongst the students and sang the National anthem along with them. He addressed the students and spoke to them regarding their vacation, their friends, and their first day at school and everyone enjoyed this lively interactive session with him.

Students were encouraged to study hard and become successful . Mr.Tawde emphasized on making the children aware of the underprivileged children around them. He further told the children that if any child is found not attending school they should immediately report to their teachers or to their parents, so that each and every child whether within the cities or the villages are not forbidden of the right to education. He also distributed notebooks to many of the students himself.

The main hope of a nation lies in the proper education of its youth. With this revelation our education minister took leave of us. It was a great day of joy for all of us.

THE END
